Historiography on Islamic Architecture: The First[Rapid identification of the powder residue of methicillin-resistant Staphylococcus aureus by multiplex PCR]. To develop a multiplex PCR method for rapid identification of the powder residue of methicillin-resistant Staphylococcus aureus (MRSA). Genomic DNA was isolated from the powder residue samples of MRSA and Staphylococcus aureus (S. aureus) by optimized alkaline lysis method, and the agarose gel electrophoresis and multiplex PCR assay were performed for the identification. The bands for MRSA genomic DNA was located in the two different position from S. aureus DNA in the gel electrophoresis, and MRSA specific primers could distinguish two clear peaks in the agarose gel in the multiplex PCR. Rapid identification of the powder residue of MRSA in clinical samples could be performed by this method. House Democrats said they are right about how much President Trump has spent on his signature immigration reform agenda as well as on lining up for the border wall, but that "the price" of another election for the president has been steep. "We started off with the fact that the president had promised \$25 billion in his campaign in the first week of his presidency, and yet he's still asking for \$50 billion for a wall," House Judiciary Chairman Jerry Nadler told reporters after the meeting Thursday. 50b96ab0b6
